

Data Center Retrofit Services

Upgrade without the hassle

Your complete, slide-in system—
simplifying design, installation, and
operation fan arrays, CRAHs, and CRACs.

Unmatched plug-and-play integration

Infinitum provides the most efficient, reliable, and serviceable EC fan systems packaged with the industry's leading engineers, technicians, installation & operation experts to rapidly modernize and innovate aging or failing systems.

Modernization Made Easy

Is your EC fan system as modern as your IT equipment?
Revitalize your data center, boost your PUE, and slash energy costs—all while maximizing efficiency and long-term savings.

Service You Can Rely On

Want to reduce maintenance costs?

Our modular, highly serviceable EC fan systems simplify repairs and replacements, leading to long-term savings and lower maintenance costs.

Designed to make life easier

Looking for an effortless upgrade?

Our experts manage everything—from assessment to installation—ensuring a fast, seamless transition. Enjoy quick, modular retrofits completed in 6-8 weeks, with full support at every step.

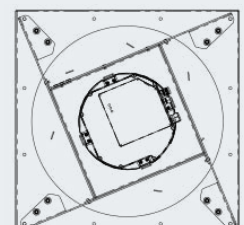

All-in-one system

Improve your PUE with a solution that's as easy to implement as it is powerful.

Aircore EC+ fan systems directly increase efficiency by 10-15%.

Infinitum motors run at variable speeds, saving energy at off-peak times and maintaining efficiency. Save on your energy bill and improve your PUE.

Service and support built around you

Our expert team will evaluate your current units, pinpoint your needs and craft a tailored solution.

Backed by a full technical staff, each retrofit proposal includes premium support and long-term peace of mind when and where you need it.

Optimize your maintenance strategy, minimize downtime with guaranteed fast, secure access to our engineers and field technicians.

Retrofit services

Infinitem offers modular, serviceable retrofit solutions for aging EC fans, improving efficiency and reliability. Our turnkey approach keeps downtime low and ensures your data center stays operationally resilient.

Plug-and-play ready

Services encompass the initial setup and calibration of EC fan equipment, ensuring their proper and efficient operation (including: testing, precise adjustment, and performance verification to align with specific operational criteria).

On-site teams

On-site services offers peace of mind with Infinitem's experts for startup, troubleshooting or training. Guaranteed expertise by factory-trained technicians, even without a Service Contract.

Spare parts

Infinitem ensures uninterrupted performance with readily available spare parts and field-serviceable components, minimizing downtime and reducing maintenance costs.

30,000+
units in use in data centers

Your trusted retrofit partner

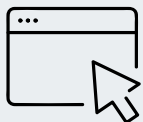

Infinitem's fan systems seamlessly integrate into most existing air handlers, delivering instant efficiency upgrades, optimized cooling, and reduced energy costs—without costly infrastructure changes.

90% Reduced installation time

100% Saved maintenance costs

48% Annual energy savings
